Elegance at a glance

BLACKLINE by mediclinics

WHERE ELEGANCE HAS NO LIMITS

“BlackLine” is the new line of hand dryers and washroom equipment designed by Mediclinics. Its stylish, exclusive and functional design blends perfectly into any bathroom environment.

The new “BlackLine” range has been inspired by the elegance and sobriety of the black color in order to offer unique hand dryers and washroom equipment .

The Mediclinics’ “BlackLine” seeks the perfect balance between the elegance of its shapes and finishes, a perfect blend into any washroom environment and the functionality of all its elements. All with a sole purpose: to provide unique experiences that please the senses and at the same time to satisfy the user’s personal hygiene needs.

This new “BlackLine” range consists of state-of-the-art as well as traditional hand dryers, automatic and manual soap dispensers, toilet and tower paper dispensers, bins and toilet brush holders.

Baby Changing stations

HYGIENE

- IonHygienic technology based on a negative particle ionizer that actively eliminates viruses and bacteria.
- Biocote® antimicrobial additive embedded into its surface, inhibiting the spread of viruses and bacteria and reducing the risk of cross-contamination.
- Easy to clean thanks to its smooth-textured surface, seamless, with rounded corners.
- Bed liner dispenser with capacity of about 80 units.

Effectiveness of the ionizer tested by:

 Test report n°: 60329708-001

Worldwide exclusive.
 BabyMedi IonHygienic is
**the unique baby
 changing station on the
 market with active
 disinfection** through an
 ionizer that eliminates
 viruses and bacteria

SAFETY

- Robust. Supports loads up to 100 Kg⁽¹⁾
- Rigid and very firm. No deflection.
- Nylon protection straps with quick fixing fastener.
- Certified according to the European safety standards **EN 12221-1** and **EN 12221-2** and the American standard **ASTM F2285-04**

COMFORT

- Spacious. 1.900 cm² to get your baby comfortably changed.
- Seamless, harmless to the baby.
- Comes with 2 hooks to be able to hang up nappy bags, handbags or other personal belongings.

DURABILITY

- Concealed opening mechanism consisting of 2 steel hinges and a pneumatic cylinder that guarantees a very smooth opening and great durability.
- Chassis for the wall mounting, made of steel with a cathaphoresis treatment

DESIGN

- Ergonomic: The Babymedi® can be opened and closed with a single hand.
- Modern and very smart, with smooth and comfortable curves combined with a very pleasant surface.
- AISI 304 Stainless steel finishing for perfect integration in any bathroom spaces.
- Possibility of recessing all the stainless steel versions thanks to the recessed kits KT0016HCS, KT0016HCSB (for the horizontal ones), KT0016VCS and KT0016VCSB (for the vertical ones).

(1) As long as the suitable wall-mounting elements are used and it is properly installed according to the Mediclinics' instructions.

What is Ion Hygienic®?

Ion Hygienic® is a technology based on the negative ions generation that does what no other baby changing station on the market can do: it kills microorganisms such as virus and bacteria. Can you imagine a baby changing station installed in a mall, in an airport, in a restaurant, in a kindergarten or anywhere free of harmful microorganisms for your baby? This is ION HYGIENIC®.

How does Ion Hygienic® work?

When the BabyMedi® is closed, the system starts up and the Ion Hygienic® ionizer starts to generate negative ions. These negative ions together with positive ions from the air surround the harmful microparticles and destroys them, disinfecting the baby changing station. When the BabyMedi® is opened, the Ion Hygienic® turns off for safety reasons.

How can I be totally sure that Ion Hygienic® kills harmful microorganisms for my baby, really?

Because Ion Hygienic® has been tested and approved by TÜV Rheinland in its laboratories in Germany, as its test report number 603229708-001 proves.

Effectiveness of the ionizer tested by:

 Test report n°: 603229708-001

Grab bars

BLACKLINE by **mediclinics**

Grab bars

Straight

- Made of 32 mm diameter stainless steel tube.
- Can be installed both horizontally and vertically
- Simple and elegant in design
- Suitable for people with reduced mobility, elderly people or the handicapped, especially designed to make their life a little bit easier.
- Two snap flange covers that hide the installation screws from the wall, enhancing its beauty once installed.
- Available in up to three different sizes

Vertical drop-down

- Made of 32 mm diameter stainless steel tube.
- Safety swing-up position that locks the bar in vertical position, for when not in use, preventing accidental collapse.
- Designed to increase accessibility and safety for people with a variety of disabilities or mobility difficulties
- Ideal in public handicapped toilets, in private homes, assisted living facilities, hospitals, and nursing homes

Vertical drop-down with fixed column

- Stainless steel vertical swing grab bar on column with a toilet paper roll holder, to be placed next to the toilet, all made of stainless steel.
- Suitable for installation in spaces adapted for people with reduced mobility or elderly, especially as a support to facilitate the transfer from the wheelchair to the toilet.
- Safety anchoring system that blocks the bar in the vertical position and avoids it falling down accidentally.
- Highest durability and rust resistance

Grab bars

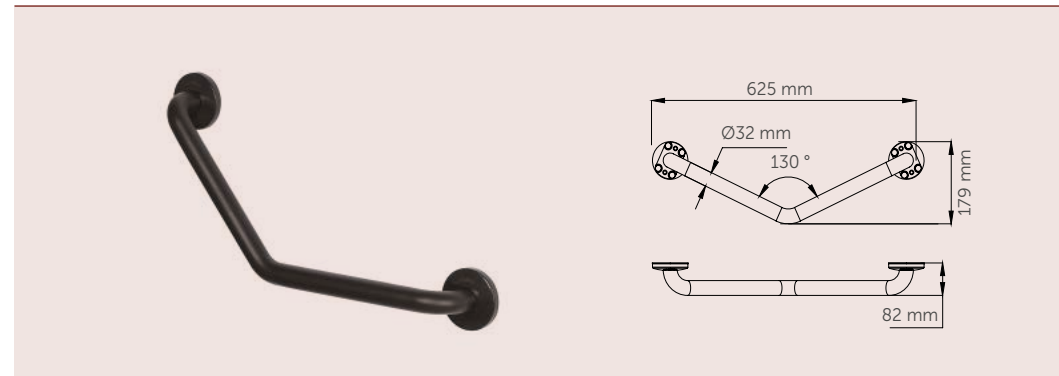

Angled on 2 walls

- 90° wall to wall horizontal grab bar for showers, baths and changing rooms, with three anchoring points and with snap flange covers, made with stainless steel tube
- Suitable for specific spaces for the elderly or people with reduced mobility.
- Model suitable for collectivities
- Stainless steel gives this bar great durability and great resistance to rust

130° angled

- Stainless steel 130° angled grab bar made of a 32 mm diameter tube and designed to provide relief and assistance around the bathroom.
- 32mm diameter bar for easier gripping.
- Stylish design making this grab bar ideal for the bathroom and other rooms in the house.
- Unique angled design provides support no matter the position.
- Durable, secure and stable, these grab bars provides confidence and stability when getting in or out of the bath or shower.
