REVISION:  
01-26

## GUIDE SPECIFICATION

Single hook. Manufacture shall be in AISI 304 stainless steel with a black, polished, or satin finish. The single hook shall have a thickness of 3.6 mm. The coat hook shall have a wall support of 0.8 mm, and one wall anchor shall be attached to the support by means of 2 screws.

## ASSEMBLY / RECOMMENDED INSTALLATION HEIGHTS

Fix the mounting plate to the wall using the screws provided through the holes in the plate (points indicated with an "S" in the figure below). Hang the support arm and decorative cover assembly onto the wall mounting plate and tighten the locking screw to secure the unit to the plate.
