GUIDE SPECIFICATION

Toilet paper roll holder, 193 mm long, without cover. Manufacture shall be in AISI 304 stainless steel with a black, polished, or satin finish. The roll holder shall have two wall supports, and 2 wall anchors shall be attached to the supports by means of screws.

ASSEMBLY / RECOMMENDED INSTALLATION HEIGHTS

Fix the mounting plates to the wall using the screws provided through the holes in the mounting plates (points indicated with an "S" in the figure below). Hang the support arm and decorative cover assembly onto the wall mounting plate and tighten the locking screw to secure the unit to the plate.
