Soap dispenser + Paper dispenser

BTM13 (Closed)

BTM13 (Open)

General description BTM13:

- Sanitary cabinet featuring a lockable mirror. Includes a touch-free soap dispenser and paper towel dispenser and LED pictograms.
- Cabinet made with a black matt finish DM black wood and have a front door that includes a mirror.
- The mirror has frontal backlit pictograms for each function (soap and paper).
- The door top hung opened, is key locked and has 2 pneumatic pistons that helps the opening and closing process.
- Drastically reduces soap consumption.
- No physical contact, protecting users against cross contamination.
- Sensor settings soap dosage adjustable.
- A single electrical point is enough to power all the cabinet elements and pictogram backlights.
- If the mirror is broken no mirror pieces will fall down.
- Available with hand dryer dispenser instead of towel paper, model BTM12.
- Easy installation cabinet.

Components and materials:

- **PAPER, towel dispenser (DT024BTM):** Stainless steel body AISI 304, for integration behind the mirror.
- **SOAP dispenser (DJ024BTM):** touch free electronic dispenser for a hidden installation behind the mirror.

Paper towel dispenser (DT024BTM)

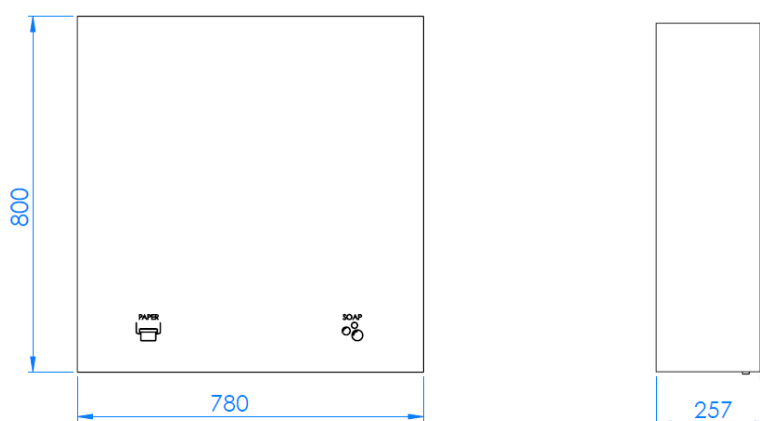

- Body thickness 0.8 mm
- Bracket mounted included
- Capacity 600 C/Z fold towers
- Weight: 2.8kg

Soap dispenser (DJ024BTM)

- Energy-efficient: Powered by a reliable 6 V power adaptor for long-lasting performance.
- Customizable settings: Easily adjust the soap outlet direction for optimal use and comfort.
- Soap viscosity (Gel:1-3.500 cps / Foam: 1-20 cps)
- Soap tank capacity: 1.8 l
- Suitable for other tank sizes, including standard 5 liter plastic drum (provided by user)
- Operating rate 220-240 V, 50/60 Hz
- 4x LR6 battery case (Optional)
- Detection range, magnet adjustable
- Weight: 3.8 Kg
