

RECESSED

Push-button activated

DJ0120C
Bright finish

General description

- Countertop-mounted soap dispenser of 500ml of capacity, made of AISI 304 stainless steel and chrome brass, push button activated.
- Model suitable for collectivities and for installation in areas with high traffic of people.
- Functional and robust design that provides high durability and high resistance to corrosion to the dispenser.
- Opening to refill with special supplied key.
- Dispenses liquid soap or hand sanitizing gels.
- It is recommended to use liquid soap or hand sanitizing gel with the following characteristics:
 - Maximum alcohol content of 80%
 - Density between 0.9 and 1.35 kg/dm³
 - Viscosity between 500 and 2,500 cps.

It does not support soaps that contain methanol, chlorine or solid or abrasive particles.

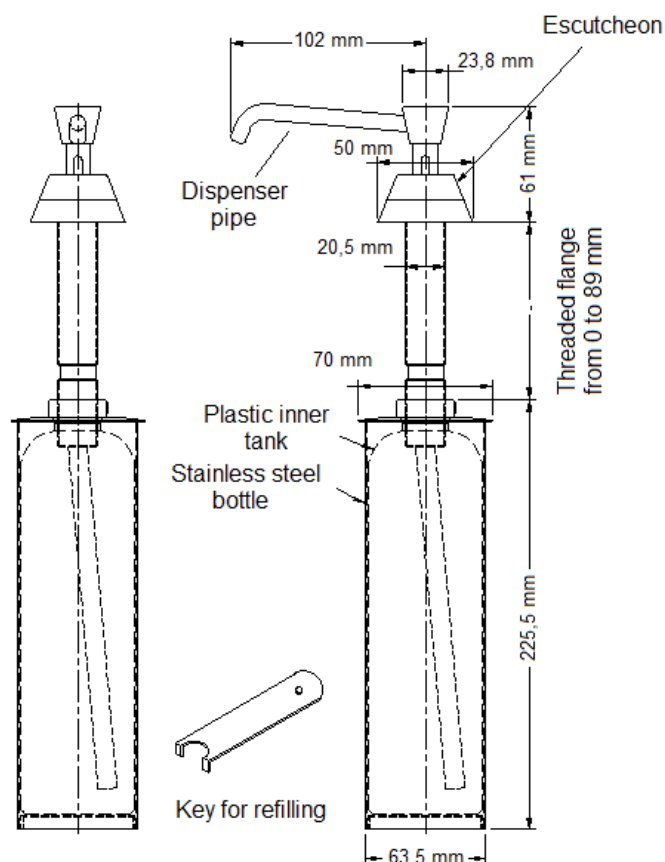

Components and materials

- DJ0120C:** bottle, push-button spring and metal washer for the countertop made of AISI 304 stainless steel. Push-button, and dispenser pipe made of chromed brass.
- BOTTLE:** made of AISI 304 stainless steel.
- INNER TANK:** located inside the stainless steel bottle and made of translucent plastic, resistant to shocks. It prevents premature oxidation of the bottle.
- PUSH BUTTON AND NOZZLE:** chromed brass with dispenser pipe and rubber washer. It requires a pulsation force of a maximum of 22.2 Newtons. For this reason, it complies with the ADA regulations.

Technical specifications

Dimensions	375.5 x 134 x 63.5mm
Capacity	500 ml
Countertop hole	Ø 22-25mm
Escutcheon	Ø 50mm
Net weight	0.55 Kg
Quantity dispensed per pump	1.0 ml

Dimensions

Dimensions ± 4%

OPERATION

Place a hand under the soap dosing valve, press the button and wait for the soap dosing to finish.

MOUNTING

Countertop recessed, according to dimensions showed in the previous sketch.

Unit is typically located adjacent to a flush mounted lavatory, through Ø 22-25 mm cut out (by others) in counter top. An adjustable threaded shank allows for installation in countertops up to 89mm high.
