Hand dryers

We have specialized in the design, development and manufacture of high-performance hand dryers for public washrooms **since 1974**, offering innovative solutions tailored to the **highest demands**.

Our wide range of hand dryers is synonymous with **quality and efficiency**. Made from **durable materials and featuring cutting-edge technology**, they provide effective and hygienic drying.
Thanks to the variety of models, they adapt perfectly to any space, from high-traffic areas to quieter environments.

All our hand dryers are certified, ensuring high reliability throughout their service life.

mediclinics

U-flow®

Its U-shaped design makes it the only hand dryer that facilitates **complete freedom of movement and totally hygienic drying**. Ideal for **busy washrooms** that require a cutting-edge look with innovative functionality.

- Sensor operated
- Low energy consumption
- Ultra-fast drying
- HEPA filter media
- BioCote® antimicrobial protection
- Ion Hygienic® air purification technology
- Immediate dryer replacement (Plug-in system).
- Removable water tank
- Direct connection to mains drain

3-accessory cabinet
ref. BTM02

02

Behind the mirror solutions

Elegant hand hygiene system concealed behind the mirror that **enhances the user experience and elevates the aesthetics of the space.** Ideal for high-traffic areas, it facilitates hand washing and drying **without the need to move around** the washroom space, thus reducing usage time and water splashes on the floor.

This innovative system can include a **water tap, automatic soap dispenser, hand dryer or paper dispenser**, all designed to offer an intuitive, efficient and contactless cleaning experience.

BTM solutions **optimize energy consumption,** thanks to sensor activation and the use of an eco-fast dryer. It also features a locking system and **anti-vandal** protection, making it a secure solution.

mediclinics

- Complete unit with mirror and security lock.
- Sensor operation for greater resource efficiency
- LED pictograms for intuitive use. (only in complete cabinet)
- Door with mirror.
- Modules with adjustable orientation for improved detection of fixed targets.
- Easy access for refilling.
- Option to customise the cabinet.

With 3 accessories

The three-accessory cabinet includes a **soap dispenser, water dispenser and an air or paper towel drying system**, thus providing a comprehensive hygiene solution at a single point.

Wash and dry units

The All-In-One units are an elegant and exclusive hand washing and drying system integrated into the washbasin or wall, providing an **elegant and efficient solution** for demanding public toilet facilities.

They consist of a **soap dispenser, water tap and hand dryer**, all sensor-activated to offer convenient, hygienic use and resource savings. In addition, the air dryer unit promotes **energy savings** thanks to its high-speed, low-consumption motor.

With options available for recessing in the washbasin itself or for wall mounting, the mechanisms remain concealed to provide **greater discretion and a better user experience**.

mediclinics

all-in-one

The two-piece All-In-One countertop set **minimises the washing and drying area,** integrating soap, water and air into just two units. Ideal for compact spaces seeking **efficiency, safety and functionality.**

- Sensor operation for greater resource efficiency.
- Hand dryer installation using plug-in system.
- Drying tap consisting of a state-of-the-art eco-fast hand dryer.
- Adjustable soap and water tap for greater consumption efficiency.
- Soap tank with 1.5L capacity, easily removable and refillable.
- Pictograms for intuitive use.

Baby changing stations

Mediclinics redefines the concept of the changing table by merging **design, robustness, technology and hygiene.**

Designed to offer maximum **comfort and safety** for babies, the changing table is available in a variety of finishes and installation options, making it ideal for public spaces seeking a **clean, functional and aesthetically pleasing solution.**

It also incorporates protective elements, along with Biocote® and Ion Hygienic® technologies to optimise hygiene levels.

mediclinics

babymedi®

The Babymedi® horizontal baby changing line stands out for its curved, elegant lines, ideal for modern spaces where **hygiene, safety and sophistication** are paramount. It can be **wall-mounted or recessed** using a fitting kit.

- Awarded the European Product Design Award for its aesthetic innovation and functionality.
- Certified (TÜVRheinland) to support heavy static loads.
- Surface with BioCote® antimicrobial protection.
- Includes safety belt.
- Includes bag hook.
- With hygienic liner dispenser.
- Optional: Ion Hygienic® air purification technology, neutralises bacteria.

Hair dryers

Our range of hair dryers has been specially developed to provide **efficient and safe solutions in all types of spaces**. From **robust, vandal-resistant models**, designed for intensive use in high-traffic areas such as gyms, leisure centres or campsites, to **compact and adjustable models,** ideal for hotel rooms, hospitals and care homes.

All our dryers combine functional design and high performance, ensuring a **comfortable experience that is tailored** to the needs of each user.

mediclinics

SC0009

This hair dryer is characterised by its **robustness and low energy consumption,** thanks to its AISI 304 stainless steel cover and eco-fast motor, making it ideal for high-traffic areas. An optional **"Plug-in" system** can be incorporated for **immediate and convenient replacement of the dryer**.

- Low energy consumption.
- Ultra-fast drying.
- Immediate dryer replacement (Plug-in system).
- Automatic shut-off system after 60 seconds of use.

06

Soap dispensers

Designed to suit any environment and need, our range of soap dispensers offers a wide variety of models, available with **either automatic or manual operation,** and suitable for **surface-mounted or recessed installation.**

Depending on the model, they can dispense liquid soap, foam soap or spray soap, offering the flexibility to use different types of soap with the same unit in order to optimise consumption and promote savings.

All models are equipped with a **front window** for quick checking of the soap level, making maintenance easier. Also features a **security lock with key**, protecting the contents from vandalism.

Manufactured from highly resistant materials, these dispensers are available in high-capacity versions, ideal for **high-traffic areas** such as airports, hospitals and gyms, as well as in **more compact formats** for lower-traffic environments such as hotels, restaurants and care homes.

mediclinics

DJ0037

With automatic operation to **avoid contact and prevent the spread of germs,** this soap dispenser combines maximum **elegance and efficiency**. Its design makes it **versatile** by enabling it to hold three different types of soap (liquid, foam or spray), if the corresponding item is ordered separately. Option to operate with batteries or via mains connection with a transformer.

Toilet paper dispensers

Mediclinics offers a wide range of toilet roll dispensers made from high-quality materials that provide **reliability, robustness and long-term use,** especially in high-traffic areas.

Their large **capacity, durability and functionality** make them an ideal solution for public toilet facilities. They are **compatible with toilet rolls of various diameters and core sizes**, providing great versatility of use. In addition, they feature advanced **anti-vandal security systems** and **paper braking** mechanisms, which optimise consumption, reduce environmental impact and contribute to long-term operational savings.

Thanks to their elegant and integrable design, these dispensers fit seamlessly into any space, seeking to combine **hygiene, efficiency and aesthetics** in a single product.

mediclinics

PR2783

Designed for demanding environments, this dispenser is built to perform at its best in **high-traffic areas**. Its large **capacity, durability and functionality** make it a **long-lasting, efficient and reliable solution**. Made of AISI 304 stainless steel, it features a **front viewing window** for content monitoring and an **anti-vandal lock** for added security.

Paper towel dispenser
ref. DT2106CS

08

Paper towel dispensers

Paper towel dispensers with a compact, **anti-vandal design and with no sharp edges**. Designed for more efficient paper use and equipped with a special security lock, ensuring reliable and safe use.

Available in a variety of materials and finishes to integrate easily into any public toilet facility environment. External viewing window to monitor paper level, available in **different capacities and for various paper formats**.

Suitable for installation in various high-traffic locations that prioritise durability, efficiency and hygiene in **modern, functional spaces**.

mediclinics

DT2106

High-capacity paper towel dispenser. It can hold up to 600 C/Z-fold towels, making it ideal for **high-traffic areas seeking functionality, aesthetics, capacity and durability**. Available in four different finishes and with the option of PVD coating to offer even greater versatility.

DT2106

CAPACITY: 400-600 C/Z fold towels
MATERIAL: steel
FINISH: white epoxy
DIMENSIONS: 330 x 275 x 130mm

Waste bin with self-closing lid
ref. PP0080CS

09

Waste bins and other containers

Bins with a functional design for quick and easy maintenance. They stand out for their versatility and durability, **making daily waste management easier**. Available in free-standing, wall-mounted or recessed versions.

Made from durable, high-quality materials, they suit all types of environments and needs, with capacities **ranging from 3 litres — ideal for small spaces — to 80 litres**, designed for high-traffic areas.

With clean, minimalist lines, these bins not only offer a practical solution for waste collection, but also **integrate elegantly** into any public toilet facility setting. They are the perfect choice for offices, receptions, sports facilities, shops, airports and shopping centres.

mediclinics

PP0080

Bin designed for **high-traffic areas**, holds up to 80 litres, **thus minimising maintenance needs**. With minimalist lines and gently rounded edges, it integrates perfectly into any space. It also features a self-closing lid **for greater hygiene and discretion**.

Stainless steel sanitary ware

Mediclinics presents a range of sanitary ware made from AISI 304 stainless steel, featuring a **robust and modern design**, especially intended for environments that require anti-vandal, functional and durable equipment.

This line includes **toilets, urinals, washbasins**, squat toilets and shower trays, making it the ideal solution for installations in schools, prisons, stadiums, function rooms and nightclubs.

Thanks to the strength and properties of their materials, these products require **minimal maintenance**, resulting in a significant reduction in operating costs.

PVD coating

PVD (Physical Vapor Deposition) is an advanced coating technique that provides a high-quality, durable and aesthetically superior metallic finish. Notable for its excellent colour stability and high resistance to wear, abrasion and corrosion, ensuring a uniform shine and long service life. Furthermore, it is an environmentally friendly process, as it does not use harmful chemicals or generate hazardous waste.

Mediclinics offers this finish as an option on the following products, adding an extra touch of elegance and exclusivity to the public toilet space.

Appendix and product list

Cleaning specifications

Stainless steel

General instructions

01 Before applying any treatment, completely remove the plastic protection from the stainless steel.

02 Do not use rough cloths, paper cloths or scouring pads.

03 Dry the treated surface using a gentle cloth.

04 As a general rule, use only a gentle cloth dampened with soapy water.

05 The application of certain cleaning treatments may change the shade of a part's finish; therefore, treatment of the entire part may be necessary.

06 Never use bleach, products based on hypochlorite solutions, liquids made with strong acids often used for cleaning floors and walls, hydrochloric acid or products containing petrol in the cleaning process.

07 Pay special attention to the components of cleaning products, especially those specifically for cleaning bathrooms.

08 In exceptional cases, carefully polish very specific areas. Then use a gentle cloth dampened with soapy water and dry thoroughly.

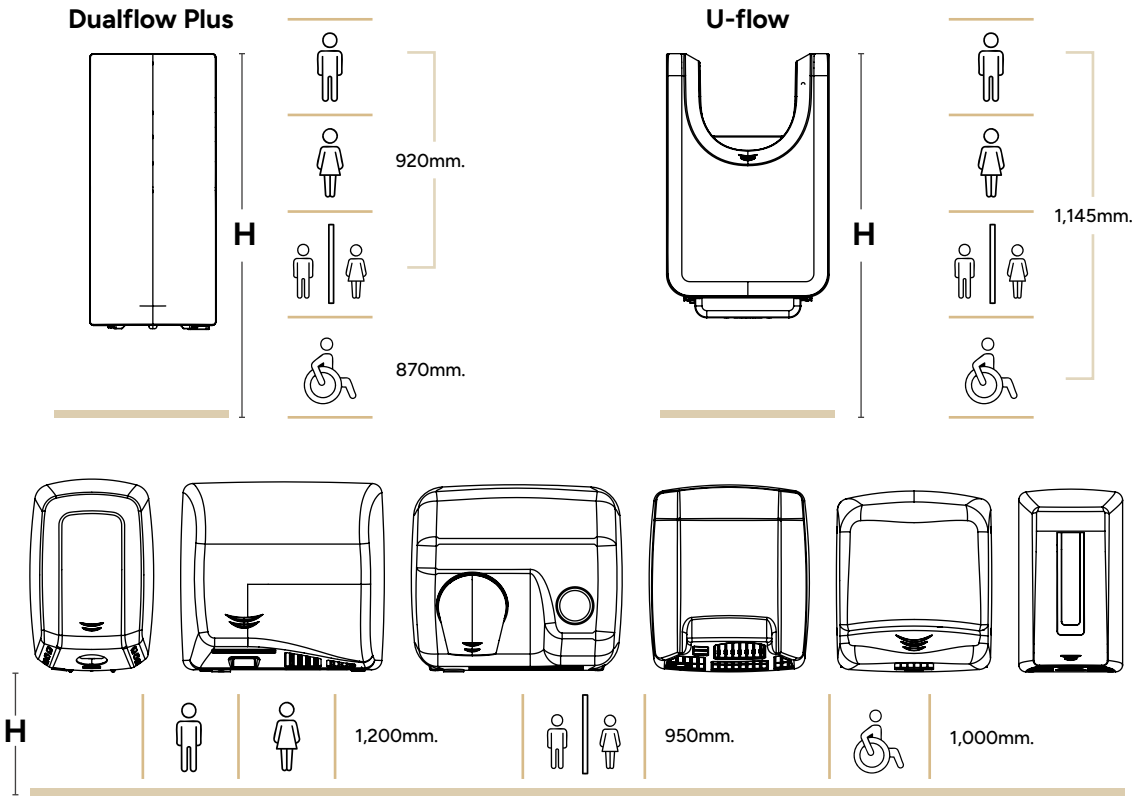

09 Printed marks are easily removed when these cleaning processes are applied. Therefore, where possible, avoid applying on top of logos or other printed marks.

Cleaning specifications

	WITH WHAT?	HOW?
REGULAR CLEANING	Liquid soap or neutral household detergent. Water.	Clean with a soft chamois cloth or sponge and warm water. Remove any moisture with a dry cloth. If the product is subjected to hostile environments, such as salt (near the sea), intense humidity, chlorine (swimming pools), etc., a further treatment in addition to regular cleaning is recommended, which involves the application of a household product containing silicon.
MEDIUM DIRT LEVEL (stains, fingerprints...)	Liquid soap or neutral household detergent. Water. Cream or liquid polish for metals, specific for steel, such as the one manufactured by 3M.	Proceed in the same way as for regular cleaning. If you use specific household products, follow the manufacturer's instructions. Ensure that the products are liquid or cream. If using sprays, apply the product to the cloth, not directly onto the surface to be treated.
HEAVY SOIL LEVEL (discolouration due to atmospheric agents)	If the above procedures do not provide satisfactory results, carefully use household cleaners, degreasers or solvents. Never use products specifically designed for tin or copper as they may affect the colour of the steel. The 3M product recommended above may be useful in these cases.	Proceed in the same way as for regular cleaning. If you use specific household products, follow the manufacturer's instructions. Ensure that the products are liquid or cream. Before treating the entire affected surface, carry out a test on a small area.
MINERAL DEPOSITS LIMESCALE	Dilute 5% white vinegar in water. Specific cleaning products for lime with a silicone protective base, for example, "Super brillo Oro" (with acetic or phosphoric acid).	Proceed in the same way as with regular cleaning. In the case of using specific cleaning products, follow the manufacturer's instructions. Before treating the entire affected surface, carry out a test on a small area.
RUST MARKS	Any of the above, excluding those indicated for highly resistant stains. You can use 3M Scotch-Brite specially designed for scratch-free cleaning of ceramic cooktops.	Gently and carefully polish using 3M Scotch-Brite in the direction of the grain or lines. NOTE: This method only applies to satin finishes, never to bright finishes.

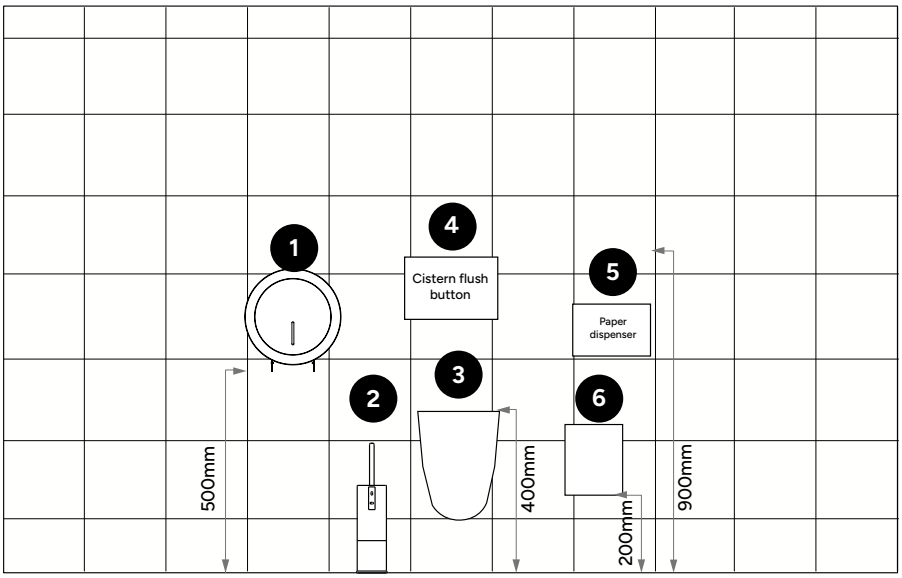

Examples and recommended installation heights

Hand dryers

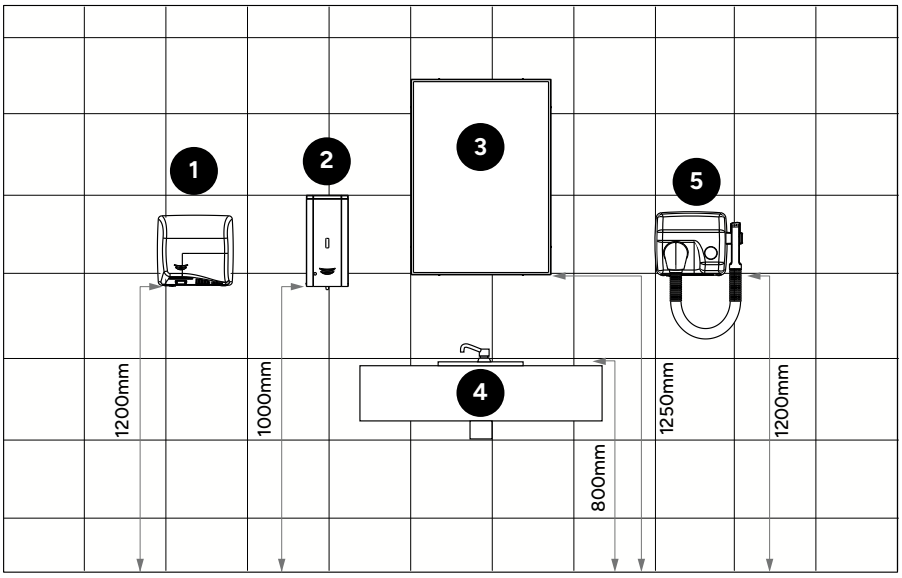

Washroom spaces

WC CUBICLE AREA

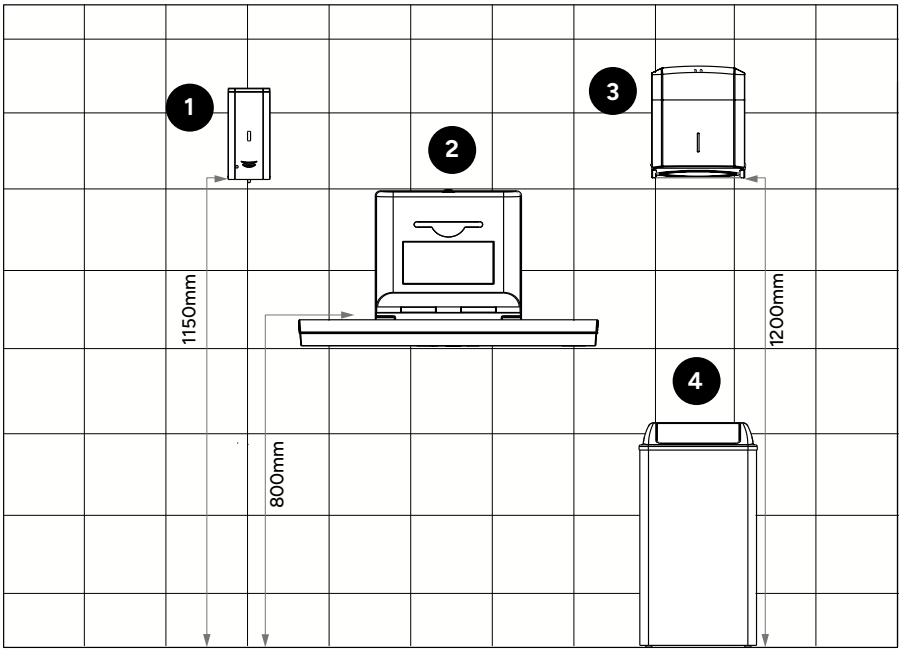

1. Toilet paper dispenser PR2783-B-C-CS
2. Toilet brush set ES0010C
3. Wall-hung toilet SN0128CS
4. Cistern flush button
5. Seat cover dispenser DCA100CS
6. Sanitary bin PP0006-B-C-CS

WASHBASIN AREA

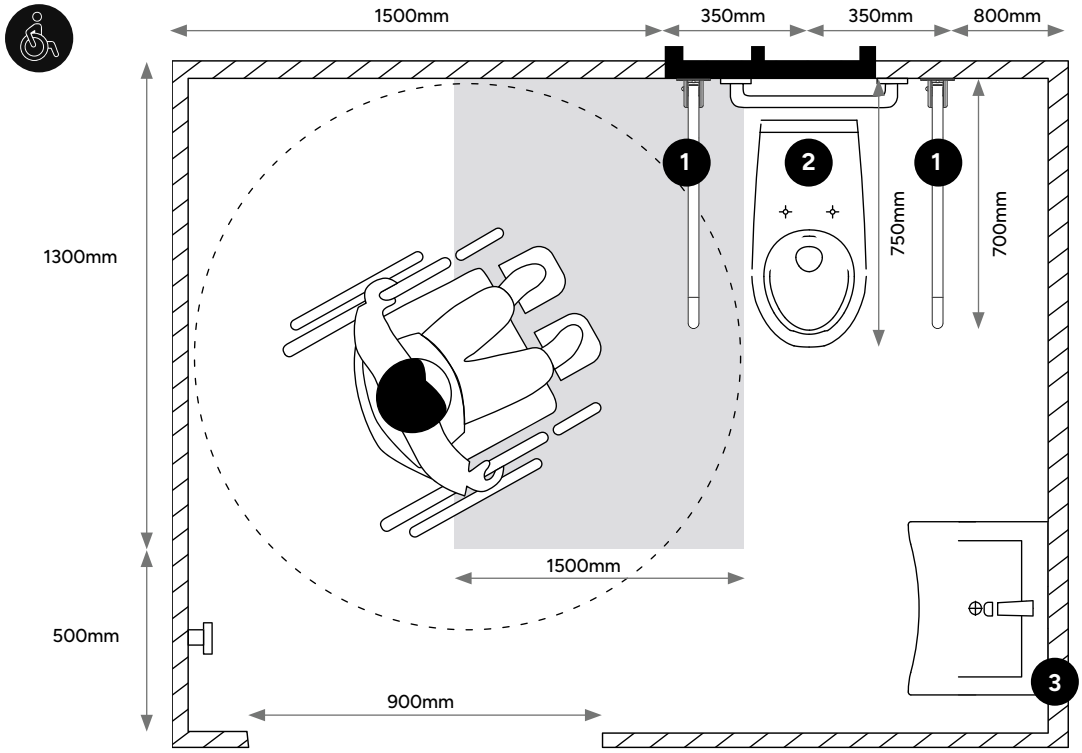

1. Speedflow hand dryer
2. Liquid soap dispenser DJ0037A-B-C-CS
3. Mirror EP035B-CS
4. Washbasin with tap
5. Hair dryer SC1088HT-CS

BABY CHANGING AREA

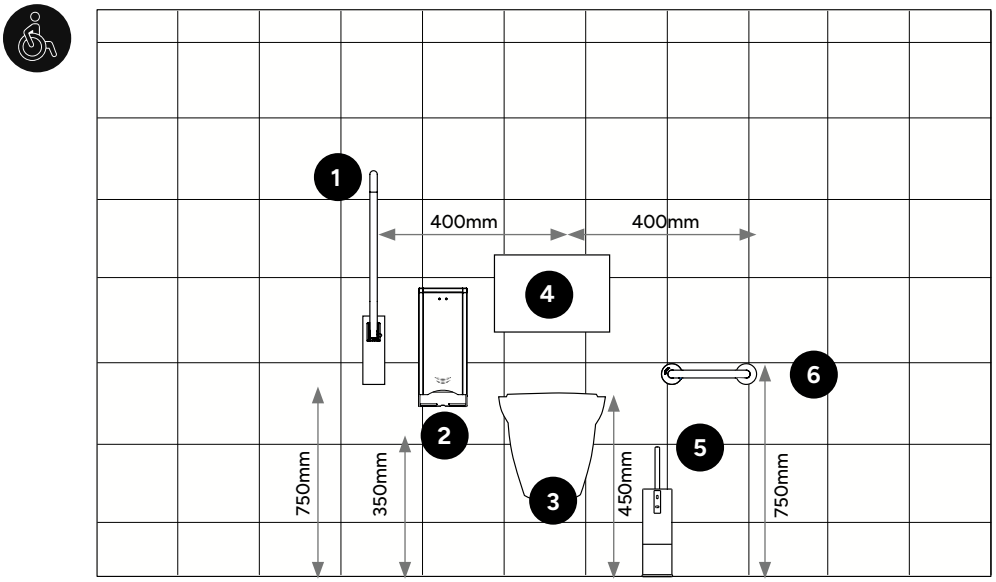

1. Liquid soap dispenser DJ0037A-B-C-CS
2. Babymedi horizontal baby changing station
3. Paper towel dispenser DT2106-B-C-CS
4. Bin PP0065-C-CS

CUBICLE AREA

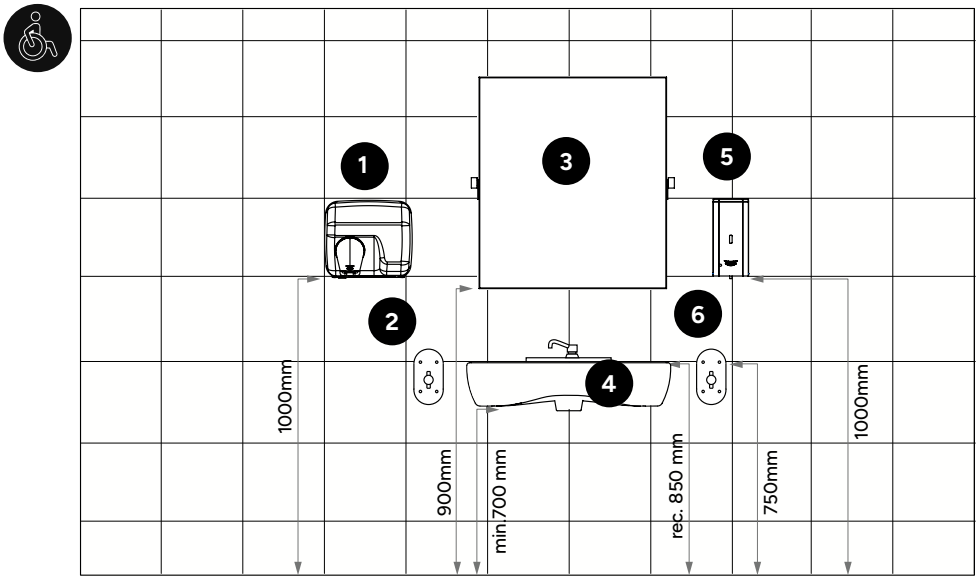

1. Grab bar BG0800C-CS
2. Wall-hung toilet D0182/01
3. FLAT62/01 washbasin with tap

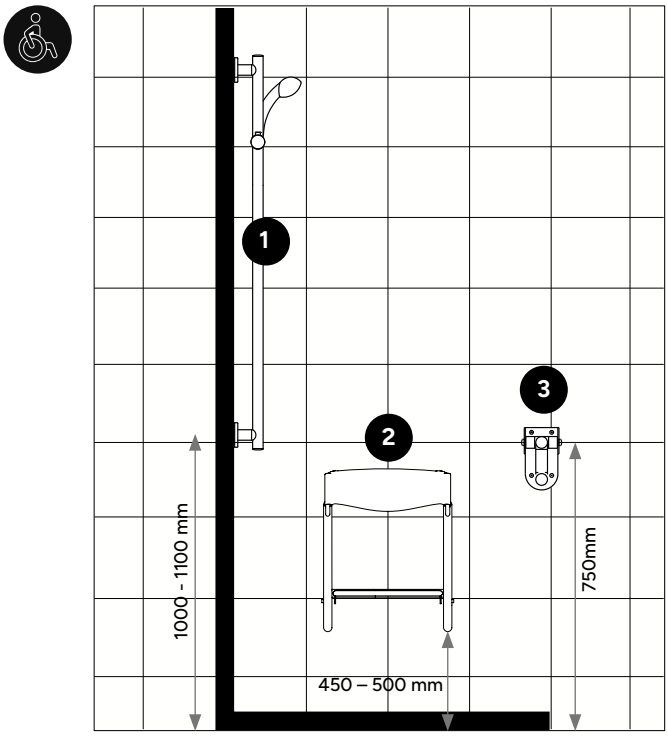

1. Grab bar BG0800C-CS
2. Toilet paper dispenser PR2784-B-C-CS
3. Wall-hung toilet D0182/01
4. Cistern flush button
5. Toilet brush set ES0010C
6. Grab bar BR0750C

WASHBASIN AREA

1. Saniflow automatic hand dryer
2. Support bar SH-B60/31
3. Mirror D0042/99
4. D0280/01 washbasin with tap
5. Liquid soap dispenser DJ0037A-B-C-CS
6. Support bar SH-B60/31

SHOWER AREA

1. Shower rail LEX-X030/37
2. Folding shower seat with backrest X835/01
3. Support bar LEX-B60/37

Certifications and Approvals

GS / UL

- Guarantees that the stated technical specifications (voltage, power, consumption, etc.) are met.
- Guarantees that the user can never get access to the live parts of the appliance.
- Guarantees that the equipment will never experience abnormal temperature increases.
- Guarantees that the user will never receive an electric shock when touching accessible metal parts.
- Guarantees that our hand dryers are protected against transient surges.
- Ensures that our machines are resistant to the ingress of water and solid objects.
- Guarantees the minimum fire risk for all our equipment.
- Guarantees that the covers of our hand dryers can withstand impact energy of 0.5 J.

EMC

- Guarantees that our appliances will not have any negative effects or cause collateral damage to other electrical or electronic devices in the vicinity by the emission of continuous or discontinuous disturbances.
- Guarantees that our units function properly without being affected by other devices in the environment, whether radiated or conducted through the mains electricity.
- Guarantees that our appliances function properly without generating radiated or conducted interference that may affect the operation of other devices in the vicinity.

GBCE

The "Green Building Council España" concept has emerged from the need to develop standards for energy efficiency and environmental responsibility. It focuses mostly on resources such as energy, water and materials. Its main objective is to achieve maximum efficiency from these resources.

- It ensures equipment is energy-efficient and environmentally friendly.
- It reduces energy bills as well as the negative impact on the environment.
- It helps in the design and construction of healthier and more productive buildings and spaces for people.
- It enhances the energy efficiency of any type of building.

ISO 9001

- Ensures a global approach focused on customer satisfaction and continuous improvement.
- Builds customer trust based on the company's ability to consistently deliver the agreed products and/or services.
- Facilitates the opening of new markets both nationally and internationally.
- Improves our competitive position.
- Increases productivity as a result of continuous improvements in our internal processes. Improvement of our internal organization, achieved through more fluid communications, with set responsibilities and objectives.
- Orientation towards continuous improvement which allows us to identify new opportunities to improve the objectives we have already achieved.
- Increased responsiveness and flexibility to changing market opportunities.
- Increased ability to create value, both for the company and for its suppliers and strategic partners.
- Improvement of the motivation of the staff within our organization, as well as their willingness to work as part of a team.

RoHS

- Ensures that our devices do not contain hazardous substances such as lead, mercury, cadmium, chromium, PBB or PBDE.
- Ensures that our products are environmentally friendly and safe for people's health.

CE

The CE mark is a key indicator of a product's compliance with EU legislation and allows the free movement of products within the European market.

- It guarantees that our products meet all the legal requirements demanded in the European Community and ensures their validity for sale throughout the European Economic Area.

General sales conditions

Mediclinics, S.A. may amend these General Terms and Conditions of Sale without prior notice. We recommend reading them before placing an order. This catalogue supersedes any previous price lists and offers.

Mediclinics, S.A due to its policy of continuous product improvement, reserves the right to modify or remove the information published in this price list or on its website. The descriptions, measurements and photographs in this catalogue are for guidance and information purposes only.

Mediclinics, S.A. provides up-to-date technical information on all its products on its website: **www.mediclinics.com**

ORDERS
By placing an order, the customer accepts the general terms and conditions of sale, the terms of use and the privacy policy. Prices may be changed without prior notice.

DELIVERY TIMES
The delivery time will be confirmed after receipt of the order.

TRANSPORT
The terms of sale will be Ex-Works Barcelona.

PREMIUM
In accordance with current legislation and validation by our technical staff.

JURISDICTION
For the resolution of any dispute or disagreement that may arise regarding the interpretation, execution, compliance and/or non-compliance with the General Terms and Conditions of Sale, the parties, waiving any other jurisdiction that may apply, submit to the jurisdiction and competence of the Courts and Tribunals of the city of Barcelona.

M17APVDG-I New	Speedflow hand dryer with HEPA filtration system and ioniser, AISI 304 stainless steel with gold PVD coating	108
M19A	Machflow hand dryer, white epoxy steel	8
M19AB	Machflow hand dryer, matte black epoxy steel	8

CODE	DESCRIPTION	PAGE
M19AC	Machflow hand dryer, bright AISI 304 stainless steel	8
M19ACS	Machflow hand dryer, satin finish AISI 304 stainless steel	8
M19AB-FIL	Machflow hand dryer (brushless motor) with HEPA filtration system, black epoxy steel	8
M19AB-I	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, black epoxy steel	8
M19AC-FIL	Machflow hand dryer (brushless motor) with HEPA filtration system, bright AISI 304 stainless steel	8
M19AC-I	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, bright AISI 304 stainless steel	8
M19ACS-FIL	Machflow hand dryer (brushless motor) with HEPA filtration system, satin finish AISI 304 stainless steel	8
M19ACS-I	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, satin finish AISI 304 stainless steel	8
M19A-FIL	Machflow hand dryer (brushless motor) with HEPA filtration system, white epoxy steel	8
M19A-I	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, white epoxy steel	8
M19APVDA-FIL New	Machflow hand dryer (brushless motor) with HEPA filtration system, AISI 304 stainless steel with anthracite PVD coating	108
M19APVDA-I New	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, AISI 304 stainless steel with anthracite PVD coating	108
M19APVDB-FIL New	Machflow hand dryer (brushless motor) with HEPA filtration system, AISI 304 stainless steel with bronze PVD coating	108
M19APVDB-I New	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, AISI 304 stainless steel with bronze PVD coating	108
M19APVDC-FIL New	Machflow hand dryer (brushless motor) with HEPA filtration system, AISI 304 stainless steel with copper PVD coating	108
M19APVDC-I New	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, AISI 304 stainless steel with copper PVD coating	108
M19APVDG-FIL New	Machflow hand dryer (brushless motor) with HEPA filtration system, AISI 304 stainless steel with gold PVD coating	108
M19APVDG-I New	Machflow hand dryer (brushless motor) with HEPA filtration system and ioniser, AISI 304 stainless steel with gold PVD coating	108
M23A	U-Flow hand dryer with HEPA filtration system, tank, drain, ioniser and plug-in system, white ABS	6
M23AB	U-Flow hand dryer with HEPA filtration system, tank, drain, ioniser and plug-in system, black ABS	6
M23ABT	U-Flow hand dryer with HEPA filtration system, tank, drain, ioniser and plug-in system, total black ABS	6
M23ACS	U-Flow hand dryer with HEPA filtration system, tank, drain, ioniser and plug-in system, satin ABS	6
M24A	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, white ABS	7
M24AB	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, black ABS	7
M24AB-DES	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and drain, black ABS	7
M24AB-DES-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, drain and ioniser, black ABS	7
M24AB-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and ioniser, black ABS	7
M24ABT New	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, total black ABS	7
M24ABT-DES New	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and drain, total black ABS	7
M24ABT-DES-I New	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, drain and ioniser, total black ABS	7
M24ABT-I New	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and ioniser, total black ABS	7
M24ACS	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, satin finish ABS	7

CODE	DESCRIPTION	PAGE
M24ACS-DES	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and drain, satin finish ABS	7
M24ACS-DES-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, drain and ioniser, satin finish ABS	7
M24ACS-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and ioniser, satin finish ABS	7
M24A-DES	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and drain, white ABS	7
M24A-DES-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system, drain and ioniser, white ABS	7
M24A-I	Dualflow Plus hand dryer (brushless motor) with HEPA filtration system and ioniser, white ABS	7
M88APLUS	Automatic JuniorPlus hand dryer, white ABS	13
M88PLUS	Manual JuniorPlus hand dryer , white ABS	13
